

Jay Kaneriya

Senior Full-Stack Laravel / PHP Developer · 9+ Years Production Experience

Rajkot, Gujarat, India (IST) | jay.kaneriya8@gmail.com | +91 85300 78687 | jaykaneriya.github.io | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Senior Full-Stack Laravel / PHP Developer with **9+ years** shipping production web applications for education, eCommerce and SaaS. Most recently **Senior Web Application Developer at Paperly** (Perth, Australia — remote), leading end-to-end module development on a Laravel / Vue school-management platform used daily by thousands of teachers and parents across 250+ Australian schools. Available for **remote full-time roles** and **freelance Laravel projects** — IST timezone with AU / EU / US overlap.

Core expertise: Laravel · PHP 8+ · REST APIs · MySQL · Vue.js · React · Redis · Stripe / PayPal / Payfort · Workflow automation

WORK EXPERIENCE

Senior Web Application Developer Jul 2022 – Aug 2026

Paperly · Perth, Western Australia (Remote) · EdTech SaaS

- ▶ Led end-to-end feature development on a multi-school Laravel / Vue SaaS platform used daily by **thousands of teachers and parents** across 250+ Australian schools.
- ▶ Built excursion management, sports scheduling, music programs, parent-teacher interview booking, assessment calendars and digital permission forms as full production modules.
- ▶ Delivered dynamic form builder, workflow automation engine, geolocation-based roll-call and multi-school SIS integrations from design through to deployment.
- ▶ Designed and maintained REST API contracts and MySQL schemas; integrated third-party services in Agile sprints with the Perth team.
- ▶ Managed production releases, permission models and data migrations; collaborated asynchronously across time zones as the sole remote senior developer.

- ▶ Workflow automation

EDUCATION

B.E. Computer Science & Engineering

Gujarat Technological University

Rajkot, India
2013 – 2017

LANGUAGES

- › Delivered full-stack client projects across education, eCommerce, SaaS, restaurant and booking verticals for clients in Saudi Arabia, Australia, UK and India.
- › Built Laravel backends (REST APIs, RBAC, scheduled jobs) paired with Vue.js and React.js frontends and admin dashboards.
- › Integrated Stripe, PayPal, BPOINT and Payfort into production billing and checkout flows across multiple live products.
- › Shipped real-time features with Socket.io and Firebase; delivered AWS-backed infrastructure for media storage and deployment pipelines.
- › Mentored junior developers, led client estimates, ran code reviews and coordinated releases across multiple concurrent project teams.
